

# AcuityAnalytics

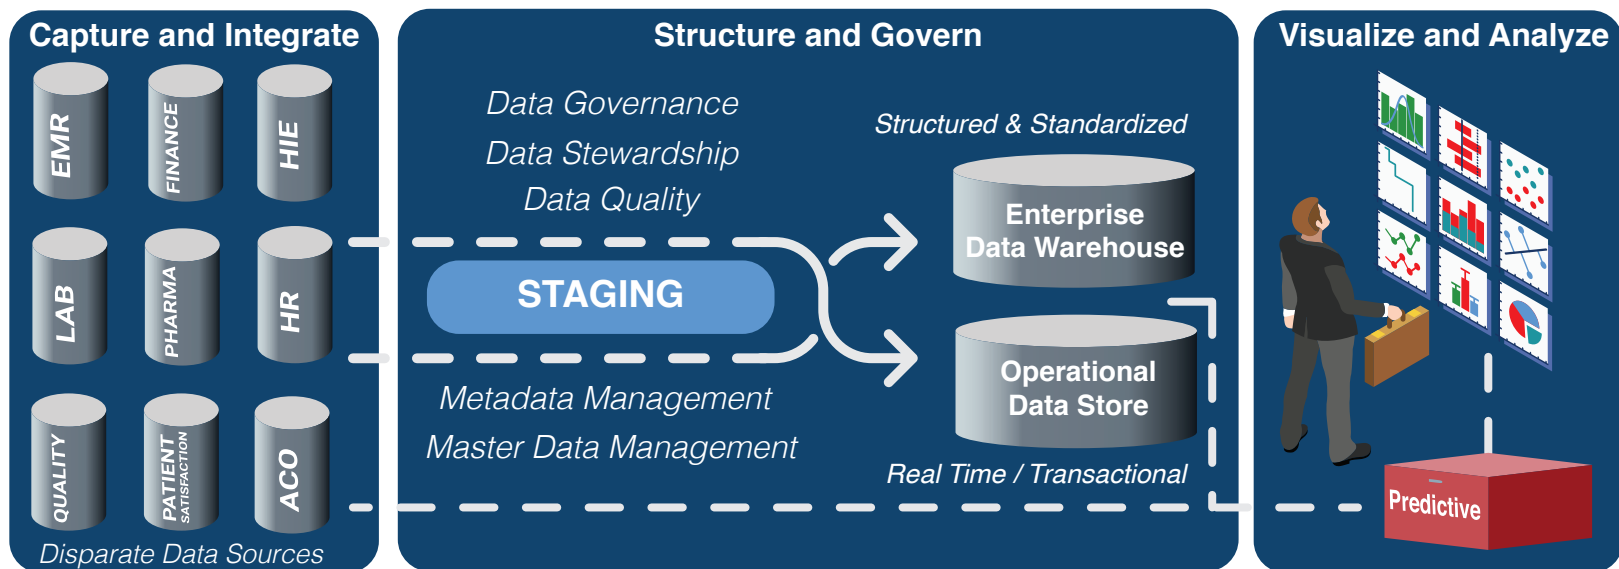

the healthcare division of Waypoint

## Navigator Service

### We meet you where you are

- ▶ How do you help companies capture and integrate data?
- ▶ What does the process look like of establishing baseline data and determining its integrity?
- ▶ Do you have any experience in evaluating and integrating data regardless of source application or software?
- ▶ Can you help me understand how manual reports can be automated thru data integration?
- ▶ What are the processes and roles for establishing data governance, data quality, and a "Single Source of Truth"?
- ▶ How do we move towards self-service analytics?
- ▶ What skillsets do our resources need to have and how do we provide them with training?
- ▶ What does the organizational structure look like in a mature data management and analytic environment?
- ▶ How do we become more proactive vs. reactive in supporting data and analytic requests?
- ▶ How can we scale processes and resources to support increasing demands for data and analytics?

### We understand where you want to go

### We help you get there
